Strong start into FY25 // Guidance upgrade; chg

Netfonds reported promising Q1 figures indicating that the company is well on track to achieve its FY25 guidance. In detail:

Gross sales came in at € 64.5m (+15% yoy), above our estimate of € 62,9m. Key driver was again the AuA growth that stood at € 28.5bn after Q1 (vs € 28.3bn in FY24) in line with our estimates (eNuW: € 28.5bn). Thanks to scale effects, material expenses should have declined relatively to sales to 81.4% (vs 83.1% in Q1'24) resulting in **net sales of € 12.0m** (26% yoy vs eNuW: € 11.6m).

EBITDA stood at € 2.8m (211% yoy), above our estimates of € 2.4m, mainly driven by the sound topline development. OPEX should have come in as expected (eNuW: € 6.0m personnel expenses and € 3.2m other OPEX. EBT came in at € 1.4m (vs € -0.4 in Q1'24y vs eNuW: € 1.1m) as a result of stable D&A (eNuW: € 1.0m) and a financial result that is burdened by the interest for the bond (eNuW: € -0.4m).

Overall, Q1 figures mark a strong start into the year. On the back of € 28.5bn AuA in Q1′24, topline should continue to grow in Q2 as AuA growth usually materializes with a delay of one quarter. Even better, Netfonds announced that **AuA reached a new record level of € 29.3bn**, which gives us already visibility into Q3. As we expect the more profitable AuM to grow more dynamically, this alone should expand EBITDA margins.

As the anticipated growth should be strongly supported by Netfonds proprietary 360° finfire platform, Netfonds should enjoy the typical scale effects of a growing platform business. Moreover, finfire is seen to fuel the consolidation of the insurance broker market that is, in contrary to the investment adviser market, still highly fragmented. Consequently, we continue to consider **finfire to remain the Groups key mid-to long-term growth and scalability driver**.

For FY25 we still expect € 263m gross sales, € 54.7m net sales and an EBITDA of € 16.2m. While the renewed topline guidance of € 260-270m gross sales and € 52.5-54m net sales is broadly in line we consider the EBITDA guidance of € 12-13.5m that is not meeting our expectation, as rather conservative with room for an update until eoy.

BUY with an unchanged PT of € 78.00, based on DCF.

1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.

The decision on the choice of the financial instruments analysed in this document was solely made by NuWays AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of NuWays AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest.
