At a glance

The EINHELL Group managed to increase its business volume between January and March 2019 and generated revenue of EUR 157.3 million. To date, the revenue generated in financial year 2019 is slightly below the guidance.

Profit before income taxes stands at EUR 9.4 million and is thus also slightly below expectations. This corresponds to a margin before income taxes of about 6.0%.

Revenue, earnings and financial position

Revenue

From January to March 2019, the EINHELL Group generated revenue of EUR 157.3 million (Q1 2018: EUR 153.7 million). Revenue is therefore slightly higher than in the prior-year quarter, but slightly lower than anticipated.

From January to March 2019, the EINHELL Group generated profit before income taxes of EUR 9.4 million (Q1 2018: EUR 11.7 million). The pretax margin is 6.0% (previous year: 7.6%). In line with the revenue situation, profit before income taxes is also slightly lower than planned.

The earnings situation has slightly deteriorated compared to the prior-year period.

Consolidated net profit after minority interest amounts to EUR 6.7 million in the period under review (previous year: EUR 8.1 million). Earnings per share amount to EUR 1.8 (previous year: EUR 2.1 per share).

As a result of an increase in headcount, personnel expenses of EUR 19.3 million are up on the prior-year level (Q1 2018: EUR 18.3 million).

Following first-time adoption of IFRS 16, depreciation expenses are up by EUR 1.0 million in financial year 2019. The previous year's depreciation figure still included EUR 0.4 million from the purchase price allocation of the Ozito Industries Pty Ltd takeover.

Other expenses decreased from EUR 21.9 million to EUR 20.4 million. As a result of the first-time adoption of IFRS 16, other operating expenses no longer include rents and lease expenses from contracts subject to IFRS 16 accounting, taking other operating expenses down by about EUR 1.0 million. Without this effect, other operating expenses would have been slightly lower than in the previous year.

The financial result of EUR -0.6 million is at the previous year's level (previous year: EUR -0.5 million).

Financial position

The key line items in the statement of financial position as at 31 March 2019 and 31 March 2018 are as follows:

	Q1 2019	Q1 2018
	in EUR million	in EUR million
Non-current assets incl. deferred tax assets	63.7	49.4
Inventories	180.3	191.0
Receivables and other assets	162.7	161.5
Cash and cash equivalents	16.9	10.4
Equity	211.9	191.9
Liabilities to banks	89.1	101.7

In the period under review, the EINHELL Group made investments amounting to EUR 2.0 million (previous year: EUR 1.7 million). The majority of this was spent on operating and office equipment and assets under construction. The increase in non-current assets was caused by the capitalisation of right-of-use assets in connection with leases of property, plant and equipment in the amount of EUR 10.8 million following firsttime adoption of IFRS 16.

Goods inventories are down on the previous year to EUR 180.3 million (previous year: EUR 191.0 million), thereby reducing some of the excess stocks from the previous year.

Trade receivables are shown after deduction of valuation allowances for expected future credit defaults. Given the rise in revenue over the previous year, trade receivables also increased year-on-year from EUR 115.4 million to EUR 124.1 million in the period under review. Other current assets decreased to EUR 38.6 million, down from EUR 46.0 million in the previous year. This is attributable to lower VAT receivables at our Chinese procurement company.

Cash and cash equivalents amount to EUR 16.9 million on the reporting date (previous year: EUR 10.4 million). Compared to the previous year, liabilities to banks decreased from EUR 101.7 million to EUR 89.1 million.

The other non-current and current liabilities increased, due primarily to the recognition of lease liabilities following the first-time adoption of IFRS 16.

Performance by region

The revenue performance was positive in the first three months of financial year 2019.

Revenue in the individual regions developed as follows:

in EURk	Q1 2019	Q1 2018
D/A/CH region	62,389	61,241
Western Europe	32,418	30,316
Eastern Europe	15,888	17,079
Overseas	31,626	34,023
Other countries	14,992	11,044
Einhell Group	157,313	153,703

Despite higher revenue, the Group was not able to increase the profit before income taxes, which amounts to EUR 9.4 million (previous year: EUR 11.7 million). The development in the individual regions was as follows:

in EURk	Q1 2019	Q1 2018
D/A/CH region	3,068	4,487
Western Europe	1,513	1,819
Eastern Europe	1,086	1,483
Overseas	3,018	3,981
Other countries	260	2,619
Reconciliation	449	-2,649
Einhell Group	9,394	11,740

The reduction in stocks from the second half of 2018 and the corresponding lower gross profit margins in a tough market environment had a negative impact on earnings, particularly in the D/A/CH and Western Europe regions.

D/A/CH region

Revenue in the D/A/CH region amounts to EUR 62.4 million in the first three months of financial year 2019 (Q1 2018: EUR 61.2 million).

Profit before income taxes in this region dropped from EUR 4.5 million to EUR 3.1 million.

Revenue in the Western Europe region amounts to EUR 32.4 million (previous year: EUR 30.3 million). The companies with the highest revenue in the Western Europe region were Einhell France with EUR 10.9 million, Einhell UK with EUR 7.1 million and Einhell Italy with EUR 7.0 million.

In the Western Europe region, profit before income taxes declined from EUR 1.8 million to EUR 1.5 million.

Eastern Europe

The Eastern Europe region did not manage to reach the high revenue level seen in the first three months of the previous year as the difficult situation in Turkey took its toll. The companies with the highest revenue in the Eastern Europe region were Einhell Poland and Einhell Croatia.

Because of the drop in revenue, the companies in the Eastern Europe region were not able to reach the earnings level of the prior-year period.

The Overseas region was unable to further expand its revenue volume in the first three months of financial year 2019. Revenue decreased from EUR 34.0 million to EUR 31.6 million. Revenue in the Overseas region is generated by the companies in Australia and South America.

Profit before income taxes is below the previous year in the first three months of financial year 2019.

Lower revenue in this region and the ongoing negative currency translation effects at our Argentinian subsidiary led to a decline in earnings.

Other countries

The Other countries were able to achieve a significant increase in revenue. This mainly includes the revenue of our companies in Hong Kong.

Most of the companies in China and Hong Kong also function as Group purchasing companies. Various promotional campaigns and marketing activities weighed on the earnings performance.

Events after reporting date

No events that are significant with regard to net assets, financial position and results of operations occurred until the preparation of the quarterly notification.

Outlook

The Board of Directors' assumptions and forecasts are based on the information currently available. The future business development depends on numerous factors, especially on the developments in the crisis regions and the trends on the currency markets.

In financial year 2019, the Einhell Group expects revenue of approximately EUR 605 million and an operating margin before taxes of approximately 6.6%.

Segment reporting

The identification of reportable operating segments pursuant to IFRS 8 is based on the so-called management approach concept. The division of the EINHELL Group into regions reflects the Group's internal management and reporting structures. The regions are: "D/A/CH region", "Western Europe", "Eastern Europe", "Overseas" and "Other countries".

Income and expenses that cannot be directly allocated to the individual regions are shown in the reconciliation item.
